Target lifestyle strategies (drawdown)

The figures in this document have been calculated net of the Fund Management Charge.

The Governed Portfolios shown below are the building blocks of our Target Drawdown Lifestyle Strategies. These strategies aim to deliver above inflation growth in the value of the fund at retirement, whilst taking a level of risk consistent with the chosen category. As you progress through our Target Lifestyle Strategies you will be invested in the appropriate Governed Portfolios depending on your time to retirement.

Risk Category	Your Lifestyle Journey 			
	At 15 years+	At 10 years	At 5 years	Retirement
Cautious	Governed Portfolio 1	Governed Portfolio 2 (Drawdown)	Governed Portfolio 3 (Drawdown)	GRIP 1
Moderately Cautious	Governed Portfolio 4	Governed Portfolio 5 (Drawdown)	Governed Portfolio 3 (Drawdown)	GRIP 2
Balanced	Governed Portfolio 4	Governed Portfolio 5 (Drawdown)	Governed Portfolio 6 (Drawdown)	GRIP 3
Moderately Adventurous	Governed Portfolio 7	Governed Portfolio 5 (Drawdown)	Governed Portfolio 6 (Drawdown)	GRIP 4
Adventurous	Governed Portfolio 7	Governed Portfolio 8 (Drawdown)	Governed Portfolio 9 (Drawdown)	GRIP 5

The mix of assets held within each portfolio is reviewed regularly by our Investment Advisory Committee (IAC) as part of our governance process. For details of the latest asset allocations and minutes of the committee meetings, please refer to our website at royallondon.com/pensions/investment-options/investment-governance/.

Overleaf, performance of each portfolio is shown against its benchmark: a gauge against which the performance of the fund can be measured. Where a fund invests in a number of different geographical areas or asset types, a composite benchmark may be used. This is when a mixture of indices have been used as a performance gauge. The mix between these indices will usually reflect the expected asset allocation of the portfolio.

Equity management options

The equity component invests in UK, Global and Emerging Market equities. The split is 25% UK Equities, 65% Global Equities and 10% Emerging Markets Equities.

Each strategy invests the equity portion in an actively managed global equity fund, the RLP Global Managed fund. However there are alternative tracker and active versions of the strategies if you prefer.

- **Tracker** – the alternative tracker version invests the equity portion of each portfolio in a global equity tracker fund, the RLP/BlackRock ACS Global Blend fund.
- **Active** – the alternative active version invests the equity portion of each portfolio in an actively managed global equity fund of funds, the RLP Global Blend Core Plus (RLP Global Growth) fund which has an additional charge.

Tracker funds, also known as passive funds, aim to perform in line with a market index such as the FTSE All Share index. They do this by investing in either all (full replication) or a representation (partial replication) of the index constituents. Tracker funds tend to be low cost as this replication is generally done automatically and does not require the same level of research as active management.

Actively managed funds aim to outperform the market index by employing fund managers and research teams to make tactical decisions on which stocks or sectors to invest in. They tend to have higher charges than tracker funds in line with the extra resource required to run these funds. It should be remembered that a higher charge does not guarantee better returns.

Cautious lifestyle strategy

This strategy has been designed for investors who want to use their fund to support a flexible income at retirement (known as drawdown) and have a cautious attitude to risk.
